Design

A limited edition series drawn by Christian Grande.

JULY 2011

Italian RIB specialist Sacs Marine of Zibido S Giacomo, near Milan, has created the 40-knot Abarth 695 'Ferrari Tribute' model. This waterjet-propelled RIB pays homage to two iconic automotive brands in one go. Her design comes from Christian Grande DesignWorks.

Only 199 of this limited edition series will be built.

Four standard colours are available Rosso Corsa red, Giallo Modena yellow, Blu Abu Dhabi blue and Grigio Titanio grey.

The carbon look dashboard is perfectly combined with his special "body", while the upholstery is characterized by colour-matched stitching, typical of Abarth car seats.

Basic Spec – Sacs' Abarth 695...
